Hypertension Quality Improvement Module

Pre-Intervention Staff Survey - Non-Clinical

For each item, select the one best answer that represents your personal opinion. Answers will only be viewed in summary and cannot be linked to an individual staff member.

1) On a scale of 1 to 5, I would rate the quality of care provided to our patients diagnosed with hypertension as:

1   2   3   4   5
Poor            Excellent

2) On a scale of 1 to 5, I would rate my value as a team member in the care of patients diagnosed with hypertension as:

1   2   3   4   5
Very low            Very High

3) I am involved in patient self-management:

☐ Not at all.
☐ By giving handouts.
☐ By doing informal patient teaching.
☐ By using techniques I have been trained to provide.

4) On a scale of 1 to 5, I would rate my overall job satisfaction:

1   2   3   4   5
Very low            Very High

5) As a care team member, your input into the quality improvement process is very valuable. Please give any comments you have about the care of patients with hypertension, opportunities to improve care, or the quality improvement process.
