

Celebrating a Milestone Year of Impact

Established in 1987, the Ohio Academy of Family Physicians Foundation (Foundation) was created to meet the philanthropic interests of OAFP members while directly strengthening healthcare delivery across Ohio. As the only 501(c)(3) organization in the state dedicated exclusively to promoting family medicine as a career choice for medical students, the Foundation plays a critical role in building and sustaining a strong family medicine workforce for Ohio.

Throughout 2025, the Foundation funded scholarships, supported hands-on learning experiences, and advanced programs that guide students and residents along the family medicine career pathway. Through participation in the Foundation's annual slate of programs, learners are empowered to explore the specialty, discover their unique place within it, and receive meaningful support at every stage of their journey. Together, these efforts are making a lasting impact on healthcare in Ohio by championing the future of family medicine.

As we reflect on another impactful year, the Foundation extends its deepest gratitude to our donors, preceptors, trustees, and Ohio's family medicine community. Your generosity and commitment make this work possible and ensure the continued growth of initiatives that inspire and prepare the next generation of family physicians. In 2025, we proudly celebrated the 35th anniversary of the Leroy A. Rodgers, MD, Preceptorship Program—a cornerstone of our mission and a nationally recognized model for experiential learning. This milestone year was further distinguished by the program's receipt of an Outstanding Program Award from the American Academy of Family Physicians Foundation, honoring its exceptional impact and the dedication of the preceptors who bring it to life. Thank you for your invaluable support and for being such an essential part of our mission to advance family medicine in Ohio.

Our 2025 Impact

56

First-year medical students participated in the Preceptorship Program. Since 1990, over 1,650 medical students have participated. Approximately **33% of those students chose family medicine** as their residency specialty and 72% chose a career in primary care.

50+

Medical students, residents, and faculty attended the Ohio Reception during the AAFP's 2025 FUTURE Conference.

5

Medical students received a scholarship to support attendance at the Family Medicine Education Consortium (FMEC) Annual Meeting.

11

Medical students received scholarships to attend the AAFP's FUTURE Conference.

1

Medical student served as a delegate to the National Congress of Student Members.

2

Resident leaders served as delegates to the National Congress of Family Medicine Residents.

2025 FAMILY PHYSICIAN MENTORSHIP AWARD

The Foundation annually presents the Family Physician Mentorship Award to recognize a community-based Ohio family physician who, as a preceptor, has exhibited exemplary qualities and characteristics of mentorship excellence. The recipient of the 2025 Family Physician Mentorship Award was Roma Amin, MD, FAAFP.

From the moment colleagues and students meet Dr. Amin, her warmth, wisdom, and unwavering commitment to others' growth leave a lasting impression. As one nominator shared, "She is a mentor that sees all learners and colleagues as equals. This is a unique and remarkable skill that instills trust and confidence in those around her."

Her mentees consistently describe her both as a role model and a champion for their success. Former Leroy A. Rodgers, MD, Preceptorship Program student Mackenzie Attwell recalls, "Dr. Amin truly fostered my love for family medicine and was the best role model in both patient care and preceptorship. She challenged us to think outside our boundaries and made us feel like part of the team."

Read more about Dr. Amin and the Foundation awards at www.ohioafp.org/foundation.

LEADERSHIP TEAM

Officers

Haley Coleman, MD - Chair
Allison Macerollo, MD - Vice Chair
Lilian White, MD - Treasurer
