Cancer Survivorship E-Learning Series for Primary Care Providers

The Cancer Survivorship E-Learning Series is a continuing education program offered at no cost that provides a forum to educate primary care providers (e.g., general medicine physicians, geriatricians, gynecologists, physician assistants, nurse practitioners, nurses) who may have patients who are cancer survivors about how to better understand and care for survivors in the primary care setting.

Clinicians can learn about caring for survivors of adult-onset cancers through a series of ten enduring online educational modules.

For more information visit: bit.ly/PCPE-Learning

Module 1: Current Status of Survivorship Care and the Role of Primary Care Providers
Module 2: Late Effects of Cancer and its Treatments: Managing Comorbidities and Coordinating with Specialty Providers
