

Unfortunately, the provisions of HB 218 fall short of what our state needs as we work toward pandemic recovery, and this bill does not address the concerns expressed by the medical, business and university communities about prior proposals of a similar nature. Protection of an employer's rights to make decisions in the best interest of their employees and those we serve cannot be overstated.

Although our organizations oppose HB 218, we appreciate your consideration and look forward to continuing to work with members of the legislature on this issue.
