Premier Health

Breaking Down Racism to Build Cultural Intelligence and Understand Health Disparities

APRIL 17
2021

This year's symposium will reflect on lessons extracted from the difficult year of 2020. What can we learn from both the #BLM movement and our response to the Covid-19 pandemic in terms of health equity? How do we develop skills and competencies to serve patients as antiracist providers? These are some of the questions to be addressed in the 2021 University of Dayton & Miami Valley Hospital Healthcare Symposium.
